- Redux-saga

CERTIFICATIONS

- **BrainyBeam Technologies Pvt.Ltd, Ahmedabad**

I have done internship at BrainyBeam technologies. It was 15 days online internship based on Web Development and Basic PHP concepts.

- **CreArt Solutions OPC PVT.LTD, Ahmedabad.**

I have done internship at CreArt Solution OPC PVT LTD. During the internship, I learned HTML, CSS and JavaScript.

Projects

- **Cloud Based Virtual Keypad**

- It is a virtual keypad based on IOT. My project includes image processing, character recognition, block detection.
- Also we use firebase for data storage and data management as it is open source and cost effective
- My project was selected in SARJAN. It was project exhibition held in our collage and got 2nd place in the event

Experience

- **Pulpit Mobility, Gandhinagar**

04/2022 - 09/2022

Backend Developer (NodeJs)

Successfully completed a 3-month internship and 2-month job as web developer that time focused on Node.js development, gaining practical experience and proficiency in this cutting-edge technology.

API Development: Designed and implemented RESTful APIs using Node.js and Express.js, including essential features like user registration and login functionalities.

Database Integration: Worked with databases (MongoDB) to store and retrieve user data, demonstrating competence in database operations.

Version Control: Collaborated with team members using Git for version control, ensuring a well-maintained and organized codebase throughout the internship.

- **SoluLab INC, Ahmedabad**

03/2023 - Present

Frontend developer (ReactJS)

Actively engaged in a 7-month training program focused on React.js development, gaining hands-on experience and expertise in this modern front-end library.

Core React: Developed a strong foundation in React.js, including mastering component-based architecture, JSX, and the virtual DOM, enabling efficient UI development.

Responsive Web Design: Acquired skills in creating responsive web applications, ensuring seamless user experiences across various devices and screen sizes.

State Management: Proficient in utilizing Redux for state management, effectively managing and sharing application data to maintain a predictable and scalable application state.

Component Reusability: Demonstrated the ability to create reusable React components, enhancing code maintainability and facilitating rapid application development.

RESTful API Integration: Successfully integrated React applications with RESTful APIs, enabling data retrieval and interaction with backend services.

Developed problem-solving skills, efficiently identifying and resolving issues to ensure smooth application functionality.
